Caillou, No More Diapers (board Book Edition): Potty Training Series, STEP 2

Synopsis

New board book format! Caillou no longer wants to wear diapers – even at night. Caillou knows now when he has to use the potty. Very soon, he hopes to use the big toilet and to no longer wear diapers at night. A parentâ™s wish to have their child totally potty trained is not necessarily in line with the physiological capacities of their child. This book helps to understand that it is not parents who potty train their child but rather the child who does it on their own.

Caillou has finally mastered the use of the toilet during the day and feel like a big boy now and wants to be able to stop wearing to bed at night as well. Each child develops at their own pace and some accomplish this milestone feat faster than others. Something Caillou learn in No More Diapers. The trick is to encourage even as the child feels that he will never get it right. This is a

lovely book to share with our child so that he or she understands it is not an overnight process so don't give up at little setbacks. Keep encouraging them read them the story often and let see that it will happen. The artistic illustrations are bold and colorful. They will easily hold their attention as will the simple text. My rating is 4 1/2 out of 5 stars.
