## Customer Reviews

If you are seeking an up-to-the-minute resource that will turn you into a first rate speaker, *The Well-Spoken Woman* is your book. Written by top speech coach Christine K. Jahnke, this book leads you into claiming your power by confidently stating your ideas and opinions while looking polished and prepared. In short, it helps you conquer public-speaking anxiety and be taken seriously. Illustrated by Kersti Frigell with real life examples from speakers such as Ann Richards, Pat Summitt, Maya Angelou, and Melinda Gates, the material is engagingly displayed and clearly laid out. *The Well-Spoken Woman's* opening premise is that a woman's power persona evolves from bringing her whole self and signature style to the podium. "Expression and engagement are hot... Dialogue, listening, and showing empathy are now valued and respected." It seems the time has finally come to express our uniquely feminine leadership from the front of the room. Research reveals that 58% of a speaker's impact comes from body language and appearance, 38% from voice quality, and 7% from the message. Now that we have the science behind it, it's easier for a woman to identify which elements of her presentation really matter and which she should spend the most time improving. This is the part of the book I learned the most from; it changed my focus from the message itself to the way my voice carries the message, and from what I wear to how I move. After learning what makes for an impactful live performance, Jahnke moves on to something she calls the "the five C's of message development": clarity, connection, compelling, concise, and continual. The neat thing about her "message map" technology is that it applies to all different kinds of topics.
