## Customer Reviews

For the most part, the book explained ideas in a simply format for all beginners. I wasn't as impressed that the publisher: used words not yet explained to define other vocabulary words, bolded vocabulary words aren't all in the glossary, the index is pretty lean leaving out a lot of words, and the math throughout the book generally isn't presented the best way possible. Overall, still a good book but there may be better options out there.

Great book! Very informative. The terms throughout the book are very helpful. Using this book in a college class. !

Excessive writing throughout the book. Can definitely tell it's been used.

This book was very comprehensive and easy to read!

I am into real estate this is a good basic and foundation material but this is not what I am looking for.
