Odd Hours (Odd Thomas Series)

Synopsis

Dean Koontz forges the kind of sweeping melodrama complete with screwball laughs, nail-biting moments, and surprises that is the bedrock of American narrative fiction. Only a handful of fictional characters are recognized by first name alone. Dean Koontz's Odd Thomas is one such literary hero, who has come alive in listeners' imaginations as he explores the greatest mysteries of this world and the next with his inimitable wit, heart, and quiet gallantry. Now Koontz follows Odd as he is drawn onward, to a destiny he cannot imagine. Haunted by dreams of an all-encompassing red tide, Odd is pulled inexorably to the sea, to a small California coastal town where nothing is as it seems. One of the most remarkable and appealing characters in current fiction, a page-turning account, beautifully written, another literary home run. The Virginian-Pilot Takes off at breakneck speed, a superb story from one of our contemporary masters. San Antonio Express-News

Book Information

Series: Odd Thomas Series (Book 4)

Audio CD: 7 pages

Publisher: Brilliance Audio; Unabridged edition (April 29, 2014)

Customer Reviews

Dean Koontz is one of my favorite genre writers, and the original ODD THOMAS novel is my second favorite of his books, right after his 1987 novel WATCHERS. Given the enormously favorable response to ODD THOMAS, Koontz decided to turn the book into a series, and now plans to write six or seven novels featuring the character. ODD HOURS is the fourth book in the sequence, and is probably the best of the sequels so far. If you've read ODD THOMAS (and you MUST read the four novels in order to properly enjoy them) you know that these books are a unique combination of

suspense, dark comedy, and spiritual uplift. Odd is a character with a very unique voice, one that I very much enjoy listening to. The pleasure of the Odd Thomas novels is not really the plots, which are often thin and unrealistic. Instead, the pleasure is in watching how Odd wryly reacts to all the insanity taking place around him. The results are often hilariously funny, yet at the same time emotionally moving. There are no other books quite like them. In ODD HOURS, the story involves a terrorist plot to smuggle nuclear weapons into a small California coastal town. This plot is in no way believable. But again, Koontz simply uses this rather silly storyline as an excuse to allow Odd to have another wild adventure, encounter another cast of eccentric characters, and pontificate about the absurd yet wonderful nature of life. After a slightly slow start, this novel works wonderfully well at this level. The end result is the best Koontz book I've read for quite some time. Admittedly, ODD HOURS isn't for everyone. Some readers I know have lamented Koontz's new style of writing, often proclaiming that his books aren't as well written as his horror novels of the 1980s and early 1990s.
