Customer Reviews

I do not see where it says this is the UK version.....no help if you live in the US.....im returning this

I think it is an excellent book, especially for those who is not familiar with federal tax preparation in the US at all. In this book, many concepts are explained quite clearly. Even though published in 2009, many concepts and principles we use now remain the same. And as an immigrant, after reading the book, I found no difficulty in tax filing. Tax filing is just a breeze.

This book seems to have been written by amateurs. David Silverman has ruined the work of Eric Tyson with his elementary views on taxes. I wish I could give it less than 1 star.
