Customer Reviews

I chose th to rate this book a 5, because it makes you laugh, cry, and sad. It is hard to put down. You just want to sit, put a throw over your legs, curl up, and read. It makes a rainy day full of sunshine.

This was one of the best Macomber stories I have read! It kept me on the edge of my seat! I was

glad to see both sides of the couple play a role in protecting the other. I loved the humorous bits and pieces that Debbie interjected throughout the story. Since this was the last of the series I also enjoyed catching up on the previous couples. FUN READ!

How do you do it Debbie Macomber? I read one of your books and think this is the best book yet and run to find another one and that is equally good a wonderful read. In this book you took out all the stops and gave us a book with everything in it!

Series tend to bring the various characters closer to one another and the reader. Debbie managed to bring these characters back into each other's lives in unusual and interesting ways. Friendships among macho men are rare, yet do in part to their wives helped to unite these men and their families in deep loving relationships. Excellent Read.

Debbie, is another of the inspired writers to get involved with her books .. I believe Deliverance Company has 3 maybe 4 total books and each one is full of adventure ,Love, and a determined woman who will find her man and her piece of Happily ever after..this woman 's books also shout out ...READ READ READ..LOVE her books.

Different than most Debbie Macomber books...the whole series. Yet, there are still the deep, real-life characters and she just spins each story in such a way, it takes blurred vision before bed to make you(me)put it away for the night. This one was a really WILD ride!!!

Another hit for Ms. Macomber. She has kept up the pace of the Deliverance Company. I just wish there were more of them. She brings the emotions alive of all the characters and you can feel what they do. It makes you want certain things to happen and when they don't bring out the tissue. A great read to the very end.

Another excellent book from an excellent author! This is a wonderful series of books and the best was certainly saved for last. I do hope however that we will hear more about the deliverance company characters. As always a fun read and a page turner.
