## Customer Reviews

Before I bought this book I had read a few comments complaining about the color of the pages... somewhat yellowish in an almost but not quite parchments sort of way. Oh bother, said I, This is coloring my experience of the book. It's been in the back of my mind through every chapter, "Do I like this? Or do I not?" First let me say I love the brushed watercolors over the illustrations... I'm enthralled by the book jacket and the way the window is lit up by the colored version beneath on the actual cover... and the truth is I would have picked a slightly different page color -- but that's besides the point. It's still a lovely edition and my first grader certainly has no complaints. On top of that, I'd forgotten how wonderful Pooh is. I'm so jaded by the Disney versions that invade every store and home (except mine) that I've spent a lot of time bypassing poor Pooh & Co altogether. We had recently revamped reading aloud here at home because books "written for first graders" were too mindless, books written at the reading level of Pooh today are written for an intellectual level of thought and humor that is beyond the first grader (A. A. Milne had an incredible gift for including all levels of maturity in these works) so our attempts there got tossed aside as my first grader played with his toes, fingers, hair and anything else he could reach because the books just weren't "keeping him." So I tallied up a new library budget and between and Abe Books did an overhaul... Pooh certainly is one that has hit the spot. The writing is more like how I would speak to my son, but the story is still appealing to the imagination of a first grader, the plot easily managed...
