This is an incredibly important book. For some reason, this was the one Narnia book I could never get all the way through as a boy even though I was an otherwise voracious reader. I'm not really sure why. I just finished reading it to one of my own sons and he seemed to enjoy it quite a bit. I wish now that I'd read it all the way through a long time ago. This is nothing less than a children's introduction to Christian spiritual warfare, in some ways far more general and comprehensive than Lewis' "Screwtape Letters" which covers the same subject for adults. In order of authorship and

according to the original ordering of the series "The Silver Chair" is number 4, coming between "The Voyage of the Dawn Treader" and "The Horse and his Boy". Under the current numbering by the internal chronology of the narrative, it's second to last. In many ways neither ordering is really the most useful. In broad terms, the books divide thematically between allegorical (or better, fanciful) representations of salvation history, and guides to Christian living. Into the first category fall "The Magician's Nephew", "The Lion, the Witch, and the Wardrobe", "Prince Caspian", and "The Last Battle". The second category has "The Horse and his Boy", "The Voyage of the Dawn Treader", and "The Silver Chair". I believe this last is the most significant. Lewis himself always denied his works were intended to be strictly allegorical, and in the case of the salvation history volumes this may well be the case. Element by element assignment from reality to story usually breaks down once you get past Aslan as Christ, and even where characters or events are not made to do double duty at different points (such as Edmund in "Lion") it's not always possible to carry out this operation reliably.
