So this book is super cute, but what's with the animals we are supposed to be making sounds for? Like half of them are animals that make no discriminate sound...That said, my 17 month old doesn't care and he really likes opening the flaps and finding all the other critters on each page.

Cute illustrations with large, easy to flip flaps make this a picture book toddlers can easily manage. Let you child practice making the animal sounds featured on each two page spread and identify the animals that make them...Lots of fun so join in!

Adorable infant book. Big pictures. No character developement but I think we will let that slide. Toddler loves reading it to his baby brother.
