Matters Of The Heart

Synopsis

Hope Dunne has carved out a name for herself as a top photographer, known the joys of marriage and motherhood and the heartbreak of loss. In her chic SoHo loft, Hope is content with her life, finding serenity and beauty through the lens of her camera. She isn't looking for a man or excitement. But these things find her when she accepts a last-minute assignment to fly to London at Christmas and photograph one of the world's most celebrated writers – an Irish-American author known for novels of thrilling literary darkness. To Hope's surprise, Finn O'Neill exudes warmth and a boyish charm. Enormously successful, he is a perfect counterpoint to Hope's quiet, steady grace – and he's taken instantly by her. He courts her as no one ever has before, whisking her away to his palatial, isolated Irish estate. Hope finds it all, and him, irresistible. But soon cracks begin to appear in his stories: gaps in his history, lies and bouts of jealousy unnerve her. Suddenly Hope is both in love and suspicious, caring and deeply in doubt, and ultimately frightened of the man she loves. Alone, thousands of miles from home, her mind is reeling. Is it possible that this adoring, attentive man – like the characters in his novels – is hiding something even worse? The spell cast by a brilliant sociopath has her trapped in his web, too confused and dazzled to escape, as he continues to tighten his grip on her.

Customer Reviews

I've read and/or listened to many Danielle Steele books over the years. I take her stories in spells - sometimes stepping away from them for years, then returning to them again. Let's be honest, they're fairly predictable. You know they'll either take place in San Francisco, France, New York or

London. That never changes. You know it will be a happy ending. But at least you can relate to and become interested in the characters in her novels. Many times I've thoroughly enjoyed her books from beginning to end but this one was the worst. As a side note, if you listen to books on CD regularly as I do, you come to appreciate the phenomenal readers that are out there for these books on CD. Danielle tends to choose men to read her novels which is fine, but this one was HORRIBLE. He sounded like a very old man which felt strange and awkward to me and he also used very little emotion in his voice and read very slowly and monotone. I'm listening to another book on CD right now and the reader is breathtakingly good. For those of us who rely on that, it's a gift when you get it. The characters of Hope and Finn were just not believable at all. I know I didn't form any kind of attachment at all to Hope or Finn which made this story even less believable. No woman would ever stay with a man as long as she did. He showed signs of being a sociopath in the early part of the book, then we had to endure waiting and waiting and waiting while Hope pondered, considered and wondered what on earth she should do next. He would slam her against the wall and then she'd tell him she loved him two hours later? I think not. There was no thread of a realistic human experience. A reader wants to root for the character(s) but in this story, by the end, I didn't care what happened to either of them.
