## **Customer Reviews**

I am currently taking online paralegal studies. I'm a newbie and prefer the old school way, reading the actual book for a better understanding. This book is on point and gives me a clear understanding, plus I like to highlight certain passages.

I loved the book really clear and concise reading. It made the course very easy for me to follow along after being out of school for a long time. This type of book made it very easy to study and refer back when needed. Need a few more definitions, but I have other dictionaries for that too.

I'm finding the book very informational. I'm really enjoying it. The book is clean, and in real good condition. It is everything that I wanted it to be, and more. I would recommend this seller to anyone.

I got this because of my course in law from Kaplan, book is great and very detailed. would recommend it to anyone.

New textbook, unused, therefore excellent condition. For the price, an incredible bargain! Thank you.

We love this book for our Paralegal Studies students.

This book is great with a lot of information.

We used this a lot for class - lots of examples and speaks directly to the profession. Its a book I'll keep, just as a reference, at least for a while.
