Pippy (The Simply Small Series)

Synopsis

Â Pippy is the smallest baby seahorse and she is shy. But she wants to play with the other seahorses. It looks like so much fun. Will Pippy find a way to come out from the coral and join the group?

Animals > Marine Life

Age Range: 1 - 3 years

Grade Level: Preschool - Kindergarten

Customer Reviews

I've read so many board books to my toddlers. This one initially seemed appealing due to it's bright graphics. Unfortunately, it's definitely in the bottom tier of board books we've tried. The illustrations are simple, but too much so -- like they were done in a hurry with a very rudimentary computer program -- the characters are simple but don't show any emotion or interest. The story is about Pippy overcoming shyness to meet a new friend, but the words are stilted instead of natural and the overall effect is forced. Skip this one.

perfect for toddlers, only issue are words in small font, but otherwise great! I'd love it if they made a big book for this series. im even considering doing a puppet show with it

My almost 2 year old loves this series. We've been reading them to him since we first purchased the Totty, Bitsy and Saffie books. He can read the books to us by memory.

nice little board book, very bright and colorful. Pages are nice and durable. Just the right size for little hands.

love these
